WHAT IS THE EMOTIONAL EATING RECOVERY PROGRAM?

The Emotional Eating Recovery Program is a client-led coaching program designed to help you let go of chronic dieting, struggles with emotional eating, body shame, disordered eating behaviours, and other patterns that are getting in the way of living your best life.

The foundation of the Emotional Eating Recovery Program is built on the 10 principles of intuitive eating. These principles will guide you through a process of understanding your relationship with food, getting back in touch with your body's natural hunger and fullness cues and learning trusting yourself around food again.

My evidence-based approach is holistic, recognizing you as a whole person with a complex inner and outer world. I will meet you right where you are, with all of your unique challenges and strengths. Together we will move closer to your goals, one step at a time.
